

Inseparable In Life, Corporal Joins Colonel In Hereafter

By HAL BOYLE  
With American Marines in Japan (Delayed) (AP)—At night when sleep comes slowly I often think of "the colonel and the corporal."  
I never met them and I have forgotten their names. Even if I did remember them I wouldn't tell.  
They were an inseparable team—"the colonel and the corporal." That's the way everyone who knew them spoke of them—"the colonel and the corporal."  
Close friendship between officers and men are unusual in Army life but not exactly rare. Differences in rank ordinarily make too high a hurdle for such friendships because of the grinding social distinctions drawn in military circles by an inflexible caste system which is as old as war.  
But the friendship of "the colonel and the corporal" was a battlefield friendship not a parlor friendship.  
Perilous Missions  
They belonged to an outfit of picked men who were assigned the most perilous of missions, tasks which required brains, a sense of battle timing and stoutness of heart as well as muscle.  
The colonel was an organizer of high ability, a sensitive skilled planner. He set up the initial operation for his outfit in Normandy but when the time came to go into action he insisted on going in with them too, although that hadn't been in the plan.  
"I want to go along with you, sir," said the corporal and that's how the friendship began. The colonel and the corporal went in together. At the very start they found themselves in desperate straits, and before they broke through encircling Germans with their men the corporal's carbine had saved the colonel's life, and the colonel's 45 automatic had preserved the corporal.  
"A Loyal Shadow"  
There were tight spots and close calls after that as battle followed battle. The colonel came through them all with the corporal a loyal shadow at his side.  
Other soldiers often kidded the corporal for his almost doglike devotion to his officer. He never resented it.  
"I would go with him anywhere," he always answered. "Anywhere he wanted."  
Nobody guessed as the war wore on to its close that the colonel was cracking.  
So it came as a shock to everyone—particularly the corporal—when the colonel put a gun to his temple one night and pulled the trigger. He had been organizing a major battle action, and in the middle of it he knew he hadn't the strength to go on. And rather than try to bluff and risk his men's lives when he no longer had confidence in his own power to win through he chose this way out. It wasn't cowardice in any sense. No one felt it was any way.  
Joins The Colonel  
The corporal was stunned. A few days later a letter came from his girl back home telling him as gently as she could she had fallen in love with someone else during his absence.  
For a long time the corporal thought it over alone, keeping it all to himself. Then he acted. He took the carbine that had saved his colonel. He cleaned and polished it and put on a clean uniform. He put the barrel of the carbine to his head and reached his hand down for the trigger like a lover, and so he joined his old colonel.

Brother, Sister Being Discharged

Two of the four children of Mr. and Mrs. R. Blaine Kitzmiller, West Middle street, who have been serving in the armed forces, received discharges this week.  
This morning at Indiantown Gap, Sgt. Clarence E. Kitzmiller, who served overseas for a year and a half with a medical detachment, received his discharge. He returned to the States about two weeks ago.  
On Saturday his sister, Corporal Ruth Kitzmiller, of the WAC, expects to be discharged at Brentwood, New York, after 30 months of service. She spent a year of that time in England and France.  
Another member of the family, Pfc. George C. Kitzmiller, arrived home Thursday on a 15-day leave from Sioux Falls, S. Dak. Tech. Sgt. Ivan Kitzmiller, who also serves with the medics, remains in Germany but his parents expect him home next month.

WIFE FOLLOWS AGED HUSBAND IN DEATH AFTER RECENT MISHAP

Mrs. Sylvia May Bushey, 60, York Springs R. 1, Latimore township, died at the Hanover hospital this morning at 1:30 o'clock from injuries received in an automobile accident in front of her home last Saturday noon which also resulted in the death of her husband, Amos P. Bushey, 70, three hours after the accident.  
Dr. E. S. Stambaugh, York county coroner, said this morning that while death was due to injuries received in the accident the exact cause of death had not been definitely determined. Two X-rays taken at the hospital failed to reveal any bone fractures. The result of another X-ray picture was not available late today.

Car Struck Twice

Mrs. Bushey was an occupant in the car driven by her husband which was struck by a car going north on the Gettysburg-Harrisburg road as Mr. Bushey drove onto the highway from the driveway at his home. The north-bound car was operated by Pfc. Hyman Adelman, Brooklyn, N. Y. The Bushey car was thrown into the path of a south-bound truck driven by Raymond William Ellis, Baltimore, and was hit for a second time.  
Mr. Bushey died at the Warner hospital Saturday afternoon at 3:15 o'clock. His wife suffered lacerations and bruises and was treated at the office of Dr. William Flickinger, York Springs. Four soldiers accompanying Pfc. Adelman were also treated for minor injuries by Doctor Flickinger.

Funeral On Sunday

Mrs. Bushey was born in Tyrone township, a daughter of the late Marks F. and Susanna (Livelsberger) Bream. She was a member of the Upper Bermudian Lutheran church and had been married 40 years.  
Surviving are a sister Mrs. Mary Elchelberger, York Springs, and a number of nephews and nieces.  
Funeral services Sunday afternoon at 2 o'clock from the Pittenfurt funeral home, York Springs, conducted by her pastor, the Rev. P. J. Horlick. Interment in Sunnyside cemetery, York Springs. Friends may call at the funeral home Saturday evening from 7 to 9 o'clock.

HOLD COUNTIAN ON ARMS CHARGE

A state police investigation, begun a month ago with the arrest of a 14-year-old county boy armed with a .22 calibre revolver on a burglary charge, resulted today in the arrest of two other minors and Eugene E. Weidner, 21, York Springs R. 2, on a charge of furnishing firearms to minors.  
The two minors, aged 16 and 17 years, will be arraigned in juvenile court.  
Weidner was arraigned before Justice of the Peace Robert P. Snyder this morning where he signed a plea of guilty. He was committed to jail although his release was expected later today. Justice Snyder set bail at \$300.  
Weidner is to appear in court here Monday morning for sentence.  
State police said that three loaded revolvers have been taken from the three juveniles involved in the month-long investigation. One of the guns had been stolen, the officers said.  
When a home near York Springs was burglarized and a watch and cash stolen, state police from Gettysburg were called in and arrested a 14-year-old boy in whose possession was found a loaded gun. That youth already has appeared in juvenile court.

German Slayer Of Yanks Will Be "Shot To Death"

Rome, Oct. 12 (AP)—Gen. Anton Dostler, first German general to be tried in Western Europe as a war criminal, was convicted by an American military tribunal today and sentenced to death for ordering the summary execution of 15 U. S. soldiers captured behind the German lines in Italy.  
The verdict was announced shortly after 9 a. m. (3 a. m. EST). The five-man commission sitting in judgement on Dostler had taken the case under consideration at 4 p. m. yesterday.  
The conviction must be reviewed by the commander of the Allied Forces in the Mediterranean Theater before the death sentence can be carried out.  
The American soldiers, with whose execution Dostler was charged, died before a German firing squad at La Spezia on March 26, 1944. They had

Was It Bumpy?

San Francisco, Oct. 12 (AP)—James J. Dolan, 31, recently discharged New York soldier, became lost while driving his auto around this city.  
But he knew Market street was the main stem so when he reached a point on it where a tunnel opened under twin peaks he drove right in.  
Two miles inside, at Forest Hills station, he told startled officers sent to intercept him:  
"My home town has lots of tunnels, but none of them as rough as this one."  
He was arrested on a little used ordinance prohibiting autos in street railway tunnels.

HINT CHANGES IN JAPANESE CONSTITUTION

Tokyo, Oct. 12 (AP)—Japan today placed one of the leading authorities on her tyrannical constitution within the Emperor's circle of advisors as she took her first, faltering steps to carry out General MacArthur's orders to afford her people the full breath of freedom.  
The government also sought to import rice to alleviate a food crisis made even more critical by this week's typhoon which swept over central and southern Honshu.  
Simultaneously, fresh disclosures of American investigators made it clear that, however trying the situation under an occupation, it would have been worse had Japan continued the war. Fifth Army Air Force experts established another tragic fact from the people—that Japan's radar defense was so ineffective it could not be determined whether planes approaching the homeland were friend or foe, how many there were or how high.

New Directives

Dr. Seichi Sasaki, honorary professor of Kyoto Imperial University and leading authority on Japan's constitution, has been appointed advisor to Marquis Kocho Kido, the highest ranking consultant for the Mikado.

Announcement of the appointment quickly followed new MacArthur directives for: women's suffrage; encouragement of labor unionization; abolition of "secret inquisition" systems; revision of monopolistic industrial control; and advancement of liberal education.

American authorities had pointed out the execution of the directives probably would entail changes in Japan's constitution.

The Japanese government requested MacArthur's permission to import 100,000 tons of rice from Indo-China for which "accounts already have been settled." The typhoon this week, which killed at least 69 persons and flooded 8,000 homes, caused considerable crop damage at a time when Japan is hard pressed in preparing for the approach of winter.

Japan, which also has a critical shortage of fuel, asked permission to import 120,000 tons of oil from the United States. The government told MacArthur it was prepared to pay for it with 46,000 bales of raw silk.

Can't Celebrate Halloween Now

Burgess Fred G. Pfeffer today issued a warning to all pre-Halloween celebrants that he will not tolerate Halloween pranks now and at no time will he condone the destruction of property.  
"Hundreds of youngsters are starting to celebrate now," the Burgess said, "and I have asked the police to put a halt to all pranks and to apprehend those who destroy property. Halloween is more than two weeks away and local celebrants must await until that time to indulge in harmless pranks."  
Soaping of windows, automobiles and the like is strictly forbidden, the Burgess said, and perpetrators will be arrested.  
Parents are asked to prevent their children from celebrating the goblin feast now and to warn their children against harmful acts.

PRESBYTERIAN MEN ORGANIZE LAYMEN GROUP

Men of the Presbyterian church here organized at a dinner meeting Thursday evening at the church designating their officers as an executive committee to plan bi-monthly meetings. The Presbyterians are the second local group of church men to organize this week.  
The business session followed a talk by Dr. Thomas L. Cline, president of the recently organized community laymen's group, in which he explained the background and purposes of the interdenominational organization.  
Declaring that as a better America is to be built, Americans must become "more alive" to the needs of their communities, the speaker said that if laymen don't take a greater part in building better homes and better churches our community life will not be improved.  
Promote Fellowship  
The promotion of better fellowship among the laymen of the community and an objective of bettering conditions in our community for both young people and adults were listed as purposes of the community laymen's organization. Specific projects have not yet been decided upon, Doctor Cline said.  
He announced a laymen's mass meeting for late November when a prominent layman will speak here. Work of the community laymen's organization is planned by conferences between key representatives from men's groups of the various churches of the town.

CHURCHES ARE ASKED TO BOOST WAR FUND DRIVE

Next Sunday will be National War Fund Sunday in Adams county with pastors being urged to help with the "all out" effort to raise \$21,320 for the National War Fund in this county.  
Special attention will be directed by the pulpits of the county to the appeal of the War Fund campaign. The 10-day campaign for funds opens Monday in the county. The help of the pastors has been asked in special letters mailed this week by Dean W. E. Tilberg, county War Fund campaign chairman.  
A special staff of helpers at War Fund headquarters in the Youth Center building on Baltimore street today placed in the mails 10,000 let-

ters carrying special appeals to rural residents of the county to contribute to the drive whether they are visited by solicitors or not.  
Appeal by Chairman  
Additional copies of this letter, signed by Chairman Tilberg, will be distributed to town folk throughout the county by distributing the letters through the schools.  
Dean Tilberg's statement of the grounds on which the National War Fund is conducting this last campaign is set forth as follows in the campaign letter:  
"The war is over. The boys are coming home. Why do we need a National War Fund drive now? This question will be asked again and again. The answer is, however, clear and convincing. On September 1, 1943, when our first National War Fund Drive was launched there were 7,000,000 men in the service. On September 1, 1945, the number had increased to 11,000,000 men.  
"Regardless of rapid demobilization, there will still be millions in the service a year from now. During the war years, intensive training programs, bitter fighting at the various battle fronts, and high pressure propaganda kept the army morale on a high plane. Now the war is over and time hangs heavy on the soldier's hands. He wants to come home and his failure to secure passage on the first boat causes resentment. In the meantime his morale reaches a low ebb.  
Last War Fund Drive  
"If there ever was a need for 'a home away from home'; for high class entertainment and wholesome companionship, it is now. To provide these things is the special task of the USO. Its work during 1946 will be more important than at any other time during the war.  
"I need only to mention the United Nations and Refugee Relief agencies now engaged in humanitarian work among the war-stricken minor powers of Europe and Asia. Theirs is a worthy cause and every man and woman in Adams county will want to have a part in that program.  
"This is the final National War Fund Drive. May we enlist your earnest cooperation in this worthy cause."

On Friday evening the youths from the Harrisburg and Sunbury District churches will decorate the chapel at the home for the annual Booth Festival. The youths at the home will present a pageant and program on Saturday at 1:30 p. m.

Truman Criticizes D.A.R. For Negro Discrimination

Washington, Oct. 12 (AP)—President Truman today sharply criticized race discrimination in making public a letter concerning the refusal of the DAR to grant use of Constitution hall here to a negro musician.  
The Chief Executive said, however, he was powerless to interfere with the ban imposed by the Daughters of the American Revolution.  
The President sent the letter to negro Rep. Adam C. Powell (D-N.Y.) whose wife, Hazel Scott, pianist, was refused use of the DAR's Constitution hall for a concert Oct. 20.  
"Artistic talent is not the exclusive property of any one race or group," the President wrote Powell.  
"One of the marks of a democracy is its willingness to respect and reward talent without regard to race or origin.  
"We have just brought to a successful conclusion a war against totalitarian countries which made racial discrimination their state policy.

LORD HAW HAW OF FRANCE IS EXECUTED TODAY

(By The Associated Press)  
The French "Lord Haw Haw," Jean Herold Paquis, was executed in Paris today for treason in broadcasting Nazi propaganda from Strasbourg.  
The trials of German war criminals moved ahead in Germany and Italy.  
The Wiesbaden court trying six men and a woman charged with slaying at least 400 Russians and Poles by poisonous injections at the Hadamar insane asylum heard Irma-gard Huber, 44-year-old nurse, declare she "felt terrible" about the killings, but feared trouble if she tried to leave or protest.  
At Lueneburg, where Josef Kramer and 44 others are on trial for atrocities at Oswelcim and Belsen prison camps, defense efforts continued as the former SS guards attacked prosecution witnesses' testimony concerning mass gas chamber executions.  
400 Are Executed  
Franz Hoeszler, third defendant to testify in his own defense, swore that a Jewess had lied when she testified earlier that he saved her at the last minute from gas-chamber death, but contended he actually did save several hundred from execution and concealed the fact by falsifying records.  
The trial of Gen. Anton Dostler, charged with ordering the execution of 15 captured American soldiers, was highlighted at Rome by testimony that Field Marshal Albert Kesselring's headquarters vainly sought to intercede. Lt. Hans Georg Schulz said he saw a telegraphed order from the German commander in chief in Italy after the execution that it was not to be held. Dostler countered with a declaration that he never heard of the order until the issue was injected into his trial.  
In London, Polish Attorney General George Sawicki reported about 400 German war criminals and collaborators have been executed, another 400 sentenced to prison for from 10 years to life, and another 8,000 cases are being prepared for prosecution.

Need Food, Shelter

In addition to food, the troops need shelter facilities to replace tents, Quonset huts and other installations that were demolished or heavily damaged.  
Parked airplanes were rolled about by the typhoon, the island's food stocks nearly all destroyed, and hospital patients had a nightmarish time throughout the hours of darkness.  
Official reports—conceded to be fragmentary because of limited communications—from Army headquarters in Manila and Fleet headquarters at Pearl Harbor, listed these casualties and damage on Okinawa:  
3 Killed, 10 Missing  
Three Navy men killed and 19 missing.  
One hundred soldiers injured.  
Four Japanese prisoners of war killed.  
Five small naval vessels sunk.  
Fifty-two ships (presumably small) and 70 other naval auxiliaries of all types beached on Okinawa's reefs.  
Shore installations, including dock facilities, extensively damaged.  
First, incomplete reports from Tokyo listed this havoc on Honshu:  
Sixty-nine killed.  
8,000 homes flooded, 81 bridges washed out, many thousands homeless.  
More than 1,000 acres of land washed out and many thousands flooded by heavy rains which accompanied the typhoon, increasing the nation's already critical food problem.  
Damage was estimated up to 20 per cent in the rice crop of one large Honshu island prefecture. Rice paddies were damaged on Hokkaido. The nation's rice harvest this year had been estimated before the storm at approximately 238,000,000 bushels, the lowest figure since early in the century.  
Heavily damaged communications on both Okinawa and Honshu hampered attempts to get complete reports on casualties and damage. On Okinawa, damage was so great that the east coast was out of touch with the western side of the narrow, 10-mile-wide island.  
There were fears that the navy casualties on Okinawa might be increased by later reports. In Washington yesterday, the navy reported that a far less severe typhoon on September 16-18 sank four motor minesweepers with casualties of 89 officers and men dead or missing. A submarine chaser also was sunk there, but no one aboard was killed.  
Navy craft sunk by this week's storm were two tugs, a patrol yacht, a gasoline barge and a minesweeper, all caught in Buckner bay.  
Destitute Survivors  
The U. S. Fleet, which six months ago rushed an invasion force of 100,000 to Okinawa, today was rushing to the aid of an equal number of almost destitute survivors of the vicious storm.  
Hospital ships in the area were called upon to remove 1,250 hospital patients and those wounded by the storm.  
The Okinawa base commander, Brig. Lawrence Lawson, said removal of all personnel not needed for a "permanent garrison" there was "imperative" because of lack of food and shelter. He said some of the damaged tents and Quonset huts could be repaired but indicated that losses of installations of all kinds had been extremely heavy.  
Lawson said the island's appearance was not unlike that immediately after the Yanks' conquest, when virtually every building had been leveled by gunfire.

Okinawa Torn By Slashing Typhoon; 13 Missing, Dead

(By The Associated Press)  
Okinawa today was a shambles—reminiscent of its recent battle-ravaged litter—reduced by a 132-mile typhoon that killed three American Navy personnel, left 10 sailors missing and more than 100 Yank soldiers injured, and sank, damaged or beached 127 naval vessels.  
The typhoon, which struck Okinawa Tuesday after having twisted 150 miles to the southwest for 24 hours, swept northward to kill at least 69 Japanese, flood 8,000 houses, wash away 81 bridges and leave many thousands homeless in central and southern Honshu.  
Fifty Superfortresses from the Marianas delivered 284 tons of food to the 150,000 troops on Okinawa today. Approximately twice that amount will be transported to them during the next three days by bombers from Guam. Next week deliveries will be made from Saipan.

Hospital ships in the area were called upon to remove 1,250 hospital patients and those wounded by the storm.  
The Okinawa base commander, Brig. Lawrence Lawson, said removal of all personnel not needed for a "permanent garrison" there was "imperative" because of lack of food and shelter. He said some of the damaged tents and Quonset huts could be repaired but indicated that losses of installations of all kinds had been extremely heavy.  
Lawson said the island's appearance was not unlike that immediately after the Yanks' conquest, when virtually every building had been leveled by gunfire.

# PREPAREDNESS BEST ARGUMENT AGAINST WAR

By DEWITT MACKENZIE  
AP Foreign Affairs Analyst

General of the Army George C. Marshall lays down the thesis in his remarkable biennial report that military preparedness is the correct insurance against the dangers of war—a sound deduction by a great soldier.

Prior to the outbreak of the late war—only half a dozen years ago—there was a considerable international school which held that if a nation wanted to avoid conflict it should shun armaments. The idea was that being armed was like wearing a chip on your shoulder.

The Hitlerian conflict demonstrated conclusively that this argument is wholly fallacious, in-so-far as relates to the present. Of course we know that when the world reaches the idealistically happy state of perpetual peace it will mean disarmament of all nations. However, the millennium hasn't arrived. Unpreparedness and appeasement won't save a nation in these days when there are races and nations which are aggressive minded and which are impressed only by strength. So there's no incongruity in the thought that the peace-minded nation should be armed.

**Preparedness Helps**

As remarked, unpreparedness and appeasement won't save a country. However, preparedness plus followed the late British Prime Minister Chamberlain to Berchtesgaden, Godesberg and Munich where he tried appeasement on Hitler. Chamberlain's weakness lay in the fact that England wasn't prepared for war, while the arrogant fuhrer was armed to the teeth.

Came the war, and the Nazi dictator's early successes, which all but made him master of Europe, were due to the fact that none of the Allies was ready for war. The United Nations finally got into full swing but it was a tight squeeze.

General Marshall himself played a mighty part in saving the day, and so we listen with respect to his warning that we should be prepared.

The chief of staff's warning has been supplemented by General H. H. Arnold, chief of the Army Air Forces. He is said to believe that military airplanes as they are known today will be outmoded within five or ten years by robot craft and auto-guided missiles. In short in that period we shall have reached the "push-button" age of aerial combat. He has told the Senate Military committee that during this transition period he wants 6,500 warplanes and 600,000 men.

The Allies have learned from the struggle for existence that "union gives strength." That's not a new idea. Aesop called attention to it 600 years B.C. and it was old when he passed it on. However, it takes some terrible experience like the Axis war to bring home a truth which is even so self-evident as that one.

## Orphanage Gets \$14,344 Bequest

In an adjudication by Judge Harvey A. Gross in the Orphans' court at York on the second and final account of John C. Krebs, executor of the estate of M. Bertha Zieber, late of Hanover, the sum of \$14,344.97, the entire amount for distribution, is awarded to the George W. and Agnes Hoffman orphanage, near Littlestown.

In the adjudication of the first account handed down on February 10, 1943, specific and pecuniary bequests were awarded as provided in the decedent's will. The residue was awarded to Miss Blanche L. Zieber, a sister, to have the income during her lifetime with the absolute right of consumption of the whole or so much of it as needed for her support and maintenance with the remainder to go to the orphanage.

Blanche L. Zieber has since died so that the sum awarded in the instant adjudication is what was left of the bequest of M. Bertha Zieber to her.

Among awards in the adjudication of the first and final account of Lawrence A. Glackin, executor of the will of Charles H. Glackin, late of York, handed down by Judge Gross are: \$500 to Paradise Protective and \$300 to York Catholic high school. The balance for distribution is \$10,229.30.

# LAVAL LAWYERS SAY THEY HAVE NEW EVIDENCE

Paris, Oct. 12 (AP)—Attorneys for Pierre Laval now under sentence of death for collaboration with the Germans, declared today they had uncovered important new evidence which would "explode" the case against him.

The evidence, they asserted, will prove that Laval—former Vichy chief of government—was arrested by the Germans while plotting to turn his government over to Gen. Charles de Gaulle.

The attorneys said documents smuggled out of France and hidden in Switzerland had been found and returned today. These, they said, showed Laval came to Paris at the beginning of August, 1944, to declare it an open city and to have De Gaulle officially received by a meeting of parliament.

Said Plot Failed

Paris fell to the Allies August 25, and De Gaulle entered the city the same day.

Laval's lawyers said the evidence would prove Laval drove all day and night to Nancy in northeastern France in order to free Edouard Herriot from German imprisonment and that he returned with Herriot to Paris where he obtained reinstatement for him as president of the chamber of deputies.

The lawyers said they could prove that Gestapo Chief Heinrich Himmler personally ordered the arrest of Laval before he could carry through his plan.

The defense counsel said they would present the evidence directly to General de Gaulle.

# PICKETS DEFY UNION ORDERS AT COAL MINES

Pittsburgh, Oct. 12 (AP)—Pickets at four Jones & Laughlin Steel corporation mines in Washington county, Pa., today defied orders of United Mine Workers officials that they allow maintenance men to enter the pits.

These four mines are the focal point of the great walkout which in 21 days has made nearly half the nation's bituminous coal diggers idle and has cost a production loss of more than 8,500,000 tons.

The 186 supervisory workers struck September 21 at the mines after an NLRB vote. Workers refused to enter the pits unless foremen made safety inspections. The mines closed. Since then, other mines have been closing daily.

Yesterday, for the first time, the company announced pickets refused to permit maintenance men to enter the mines.

The company's protest quickly brought orders from John L. Lewis, president of the UMW, and John A. McAlpin, president of the Mine Bosses' Union, that maintenance men be allowed to enter.

Stopped At Mines

Whether the orders were not yet relayed on for whatever reason, the pickets continued to halt pumers seeking to enter the mines.

A company spokesman declared the action to "sabotage" and adding "if that lasts a week, it will take us two or three months to get the mines back in operation." If it lasted longer than a week, he asserted, "it would ruin the mines for good."

Meanwhile, in Washington Secretary of Labor Schweinfurt continued his daily conferences with UMW President Lewis and coal operators in search of a truce which will put miners back to work. Both Lewis and the operators have announced willingness to negotiate the issue of recognizing the supervisors' union but each has offered conditions which the other finds unacceptable.

Elsewhere in the country, industry was feeling the coal shortage. U. S. Steel had closed 17 of its 24 blast furnaces, shut down 58 open hearths. Carnegie-Illinois Steel furloughed another 1,000 workers in Pennsylvania Mills for a total of 5,000. Jones & Laughlin closed one blast furnace. Steel production in the Chicago area was reduced.

## CUBS REPORTED AFTER MARION FOR \$150,000

Chicago, Oct. 12 (AP)—The Chicago Cubs may put up \$150,000 to plug their shortstop hole with Marty Marion, and the Detroit Tigers are going to be made over like the Missus' last year's hat, but when they open next year's baseball grab bag, it's the St. Louis Cardinals and New York Yankees who are most likely to pop out.

As a matter of fact, the St. Louis Laruppers and the Bronx Bombers have better teams coming back from the wars than either of this year's pennant winners fielded in the 1945 World Series, which featured probably the two weakest clubs in the history of the post-season classic.

Any team that can sell Mr. Shortstop himself—the aforementioned Marion—and still figure as favorite to gallop to the pennant must have the dice loaded. Which is the pretty spot Cardinal President Sam Breadon's in right now, what with a parade of returning veterans and Red Schoendienst already packed and ready to move in from the outfield to fill Marty's shoes.

**To Revamp Tigers**  
Although they lost to the Tiger thumping, shortstop is about the only big hole the Cubs had in the series.

The Tigers on the other hand, are going to need to be redone from cellar to attic.

The outer garden will no doubt be held down next year by Dick Wakefield, Barney McCosky and Pat Mullin, returning from the service. Jim Bloodworth, Walt Evers and Johnny Lipon will be back to see if they fit the infield pattern. Birdie Tebbetts, the catching needler comes home to replace Paul Richards, 37-year-old hero of the series' seventh game.

Don't be surprised if Hank Greenberg, the one "hot man" of the series, makes a welcome return to first base. He can't play the outfield any more, and the whisper was all over at the series that Rudy York goes on the block this winter.

**Murderers' Row**  
The Yankees, meantime, get back just about the entire murderers' row that made any other American League club just second best for so long. Joe DiMaggio and Tommy Henrich for the outfield; Buddy Hassett (or Johnny Sturm) and Joe Gordon and half-pint Phil Rizzuto and Bill Johnson for the infield; Bill Dickey and Rollie Hemsley behind the plate and Lefty Maritus Russo heading a deck of pitchers.

The Cardinals will have so much talent they'll probably have to field an "A" and a "B" entry in the 1946 campaigning. Johnny Beazley, Alpha Brazie and John Grodzki are just three of the throwers back on the firing line. Jim Brown and Frank Crespi come home to the catching job. But Billy Southworth's toughest job will be trying to find out how he can play Stan Musial, Terry Moore, Harry Walker and Enos Slaughter in the outfield at the same time, along with what he has now.

## Waynesboro To Be Host To Maroons

Tonight at 8 o'clock the Gettysburg high gridders will play their second game of the season on foreign soil when they meet the up and coming Waynesboro high eleven at Waynesboro.

The Tornado will be out to avenge a 12-0 setback last season at the hands of the Maroons. That victory was the lone Gettysburg football triumph since the 1942 campaign.

Coach "Bill" Ridinger's outfit is expected to fill the air with passes tonight. Joe Hess has shown himself to be an excellent passer with Dave Rasmussen an exceedingly capable receiver and upon this pair will rest the burden of the attack this evening.

## CARLISLE NIPS MAROON SCRUBS

Showing a distinct lack of experience but also displaying promise of developing into a winning combination later in the season, the Gettysburg high school reserves dropped their first game of the season to the Carlisle jayvees 18-0 in a game played Thursday evening under the lights at Carlisle.

The game was rather loosely played and the wet grass made the ball slippery to handle with frequent fumbles resulting.

Carlisle scored touchdowns in the first, third and final periods. One line plunge for the extra play failed while Westerahl, sub halfback, blocked two attempts for points on place kicks. The victors combined end runs and passes to produce their tallies.

Foth, end; Hottle, fullback, and Westerahl flashed good form for Coach Hachnlen's warriors.

## CANNERS MEET WEST YORK HI

Despite the fact that West York high school has dropped four straight Lower Susquehanna conference football games, the Blue and White eleven is expected to furnish Biglerville's unbeaten outfit a stiff battle when they meet Saturday afternoon at 2:30 o'clock on the West York field.

Coach "Hen" Bream is concerned due to the feeling of confidence which a number of his players have shown in regards to the coming game.

The Cannons gained one-point decisions over Enola and Elizabethtown in their first 2 starts and now occupy fourth place in the conference standing.

No change is anticipated in the Biglerville starting lineup of Saturday. The starters will be comprised of Walters and VanDyke, ends; J. Pitzer and Rice, tackles; Miller and Brough, guards; Sillick, center; Bucher, quarterback; Utz and Sandoe, halfbacks, and D. Pitzer, fullback.

The lineup for West York will be: Fourman and Silar, ends; Koch and Brodbeck, tackles; Baum and Gunning, guards; Ulrich, center; Markey, quarterback; Brown and Kottcamp, halfbacks, and Eyster, fullback.

**State College, Pa., Oct. 12 (AP)—**Bob Higgins, veteran Penn State grid coach, stressed end play Thursday as his Nittany Lions went through their final preparations for Saturday's game with the U. S. Naval Academy at Annapolis.

**Philadelphia, Oct. 12 (AP)—**Philadelphia's Milt Komarnicki, a discharged marine, will start at center for Villanova when the Wildcats invade the home gridiron of the unbeaten Holy Cross Crusaders Saturday.

## STATE TEAMS ON SCHEDULE FOR SATURDAY

**Philadelphia, Oct. 12 (AP)—**The bronze-cast cleats of an anonymous Temple university football hero—"the old shore" trophy—will be placed in perpetual competition tonight when the unbeaten Owls tangle with the Bucknell Bisons.

The trophy is offered by Temple's School of Dentistry alumni in memory of athletes of both schools who died in World War II.

The Owl-Bison clash starts the pigskin rolling in a busy week-end for 14 Keystone state collegiate gridiron elevens. Four schools, including Temple, give opponents a crack at an undefeated record.

Temple will not find the Bisons any pushover. Coach Ray Morrison says Bucknell has never been an easy team to beat, and the records agree. In 19 meetings, the Owls won seven, lost five and tied seven.

**Odds Favor Temple**  
The boys who book the odds, however, are backing the Templars who edged Syracuse, 7-6, in its opener and crushed N.Y.U., 59-0 a week ago. Bucknell started with a 19-7 triumph over Scranton, but lost to Villanova, Cornell and Pittsburgh the last three times out.

The red and blue of Pennsylvania and Penn State's Nittany Lions, both undefeated and untied, top the Saturday state grid calendar.

Penn, who held Brown and Dartmouth scoreless in early triumphs, entertains the Tarheels of North Carolina State, victors over Muhlenberg and Colgate, tangles with the formidable, unbeaten Navy Midshipmen at Annapolis.

Unbeaten but tied Franklin and Marshall ends its season against

Connecticut university. The F & M Diplomats, who routed Muhlenberg last week, played a 7-7 stalemate with Swarthmore to mar their perfect record.

Twice-beaten Lafayette seeks its first 1945 triumph at the expense of Colgate's Red Raiders at Hamilton, N. Y.; Clark Shaughnessy's Pittsburgh Panthers host Michigan State; Muhlenberg collides with Rutgers; Drexel opens its home season against City College of New York; Ursinus clashes with Pennsylvania Military college, and Lock Haven State Teachers entertains East Stroudsburg Teachers in other Saturday games.

Sunday Villanova's Wildcats meet unbeaten Holy Cross at Worcester, Mass.

ANSWERED PRAYER

"Old Glory flies at Wake!"  
The papers tell today  
As re-possession Yankees take  
Who long have been away.

The skies above once more are  
clean  
And safe the seas to rise.  
Now, Yankee sailor and marine  
The colors raise with pride.

Time was to cruel pagan foes  
Our youth was forced to bow,  
But down has gone the sun that  
rose  
And all is tranquil now.

"Old Glory flies again at Wake!"  
Press headline good to see.  
I think the prayer I used to make  
Has answered been for me.

## Today's Talk

By GEORGE MATTHEW ADAMS

KEEP INITIATIVE ALIVE!

We owe to the initiative of people  
more of the things which have  
contributed to our comfort, success  
and happiness.

Initiative discovered America. It  
settled the wild places of the earth,  
cheated pioneers, inventors, scient-  
ists and investigators, made poor  
boys rich and famous, and has turned  
many a defeat into a victory!

Without initiative a man either  
stands still or else has to lean upon  
another who has developed initiative.

Initiative is cumulative. The de-  
velopment of the word itself means  
to go into things, to start them.  
Everything really worthy has a  
humble beginning—but grows and  
grows.

The world is full of people who  
are forever telling you just how to  
do a certain thing, or how to ac-  
complish some task, but how many  
are there who will think out the  
task, or the job, consult mostly their  
innermost self—and then go ahead  
and do the job and—get the thing  
done?

The easiest thing in the world  
is to criticize and find fault, but  
it is not always easy to think out  
something that is worth while, and  
then to create from one's ideas a  
definite and useful structure. Men  
with initiative are usually silent  
men, gifted with ideas and courage,  
though without the latter there is  
little to inspire initiative.

I like this definition of initiative:  
Doing a thing without being told!  
Of course a great many of our starts  
end in failures, but it's that eternally  
ready quality of initiative that  
keeps telling us that there is a  
better way—and a winning way.

Keep that God-given initiative of  
yours—alive. If it is sleeping, arouse  
it!

Tomorrow Mr. Adams will talk on  
the subject: "That Spirit Some-  
thing."

The Navy is releasing 14,000,000

This with the 6,000,000 the army re-

Navy said the ammunition was  
being declared surplus as a result  
of examination of stock levels on 12-  
gauge ammunition used for train-

## MANY SCHOOLS

APPROVED FOR

GI TRAINING

Harrisburg, Oct. 12 (AP)—Approx-

imately 2,000 schools and com-  
mercial or industrial establishments  
have been given the state's approval  
as offering bona fide job training  
courses under which veterans, learn-  
ing as they work, can qualify for  
federal cash support under the G.I.  
Bill of Rights.

And that is only a beginning, Paul  
E. Witmeyer, deputy superintendent  
of public instruction, said today.

He predicted that about 40,000 es-  
tablishments will be involved in the  
"on the job" system of helping ex-  
servicemen toward self-supporting  
technical jobs.

Under the G.I. Bill, veterans de-  
siring to learn a trade while work-  
ing at it can get \$50 a month, if  
single, or \$75, if married, towards  
their support during their training  
or apprenticeship. However, they  
must work in an establishment offer-  
ing a genuine, planned course that  
has the State Department of Public  
Instruction's approval.

**Need Definite Goal**

Thousands of occupations come  
into the picture, but Witmeyer found  
it not too difficult to draw the line  
between "just a job" that requires  
no training course, and a trade or  
occupation involving skills or tech-  
niques.

For instance, he won't approve a  
department store "training course"  
for sales clerks, but he will act fa-  
vorably on one aimed at training li-  
troleum layers.

"We're making an honest effort"  
to see that the courses genuinely  
point the employee toward a definite  
goal, Witmeyer added. Applicants  
for approval have to submit detailed  
information about their courses and  
wage scales.

"The controlling interest of any  
program of apprentice training for  
veterans must be the interest and  
welfare of the veteran in training,"  
states the instructions guiding the  
authorities who review the training  
programs.

## WOULD SLASH, NOT WIPE OUT LOW PAY TAX

By FRANCIS J. KELLY

Washington, Oct. 12 (AP)—Chair-  
man George of the Senate Finance  
committee called today for reducing  
rather than wiping out income tax-  
es for 12,000,000 low-income Amer-  
icans.

He thus wants a change made in  
the \$5,350,000,000 tax cutting bill  
which rolled through the house yester-  
day by a vote of 343 to 10.

The Georgia Democrat said his  
committee will open three days of  
hearings Monday on the measure  
which—as it passed the house—  
would:

1. Grant a reduction of 10 per  
cent or better to every individual  
taxpayer next year, besides knock-  
ing 12,000,000 off the rolls entirely,  
for an aggregate cut of \$2,527,000,  
000.

**Cut Corporation Tax**  
2. Cut 1946 corporation taxes  
\$1,888,000,000 by lowering the busi-  
ness surtax rate and reducing—  
though not eliminating until 1947—  
the excess profits tax.

3. Prune back next July 1 the ex-  
cise levies on luxury and semi-  
luxury items to pre-war levels for  
a savings to consumers of \$335,000,000  
in the last half of 1946.

4. Repeal the \$5 "windshield tax"  
on automobiles, and

5. Freeze the social security tax  
at its present one per cent rate  
each on employers and employees.  
Otherwise the tax would have  
climbed to two and one-half per  
cent each January 1.

Commenting on the house action  
in forcing 12,000,000 individuals  
from tax liability George told a re-  
porter:

**To Hoist Debt**

"I think it very unwise to narrow  
the base, because we may face the  
necessity of meeting troublesome  
budgetary problems down the road.  
We might find it necessary to in-  
crease revenues rapidly, and once  
off the rolls, it would be hard to  
put the 12,000,000 on again.

"I think the taxes in the low  
brackets ought to be reduced to  
the point where they would not be  
burdensome, but they should not be  
taken off entirely at this time."

The slide rule experts who helped  
congressmen frame the tax bill cal-  
culate that the reductions will trim  
federal revenue in 1946 to \$27-  
140,000,000 and hoist the national  
debt up another \$12,000,000,000.

# Beyond Tomorrow

By Helen R. Woodward

## Chapter 4

Anne and Eva ate leisurely, talking of completely inconsequential things. Anne told Eva about her luncheon at the Tulip Room with Wayne and Eve recalled some things that had happened during her work hours. The salad was cool and crisp, the chops beautifully browned, the peas creamed to perfection and the bakery rolls satisfying. Before she left that morning, Eve had put a tray of lime ice in the electric refrigerator downstairs and this made a perfect conclusion to the meal.

At the moment, there was a soft scratching noise at the door and the girls looked at each other smilingly. Eve got up and opened the door into the hallway to admit a small, happy, black dog of uncertain breeding and ancestry. Ever since one cold bleak night in deepest winter when Rags had followed Anne home, he had been a very definite part of their household. Somehow he always seemed to know when they had finished their meal and being quite a gentleman, waited until he knew it was time for him to eat. But from then on he took things over and managed them as he saw fit. Mrs. Adams had not objected to their keeping Rags and indeed the little black dog had made a secure place for himself in her affections also and spent most of the day trotting at her heels. But when the girls came home, he seemed to sense that he belonged to them.

Now he came in, wagging his tail joyously, and Anne took him into the kitchenette to enjoy his very own chop which she had cooked especially for him. And in view of the fact that very few people could get chops often, Rags evidently was as Anne said "a very ritzy canine."

Tonight, Anne realizing that Eve's moodiness would grow unless she were diverted, led her to talk of Garret and their short married life together. Eve was eager to talk, there was a feverishness about her that would not allow her to be quiet.

"I met Garret on a picnic—but I've already told you about that,—and how we fell in love at first sight, though I was with another fellow and he was practically engaged to another girl. Oh, Anne, he's the handsomest thing—especially in his uniform!"

Anne smiled and settled herself to manure her nails. "I know, darling. His pictures are completely devastating!"

Eve was living over again those happy days of her courtship and marriage. "I guess we acted pretty silly—laughing at things no one else thought funny, and playing the most idiotic jokes on each

**10,000 FANS GREET TIGERS ON THURSDAY**

By FRANK KENESSON

Detroit, Oct. 12 (AP)—The Detroit Tigers, dog tired but hilarious after dragging down baseball's richest prize by beating the Chicago Cubs in the world series, arrived home just before 1 a. m. Thursday to find a milling mob of fully 10,000 fans—band and all—staging an impromptu victory celebration in and around Union station.

Although the Tigers' special train, bearing the club home from Chicago, was more than an hour late the throng that jammed the depot and filled Fort and Third streets for a block each way continued to swell with pennant-waving, horn-toting celebrants even as the players were hustled along a police-lined aisle to waiting taxicabs.

Manager Steve O'Neill, who hasn't had a team in a world series since he caught for the Cleveland Indians' championship outfit of 1920, couldn't believe his eyes when he first saw the wall of humanity through which police blazed a trail to the sidewalk.

"There's nothing in the world like

it," O'Neill marvelled. "Now there's a reception. They love us, don't they?"

Wild cheers arose from the crowd as their heroes came in view—O'Neill, Newhouse, Greenberg, Richards, York, Trout.

Players, many of them accompanied by their wives, grinned, waved and yelled with the rest but were glad to get out of reach of the jostling crowd.

Interrupting the celebrating long enough to grab a night's sleep, the Tigers scattered to their homes to reconvene Thursday night for an official salute at a victory banquet sponsored by the Detroit board of commerce.

Banquet officials invited 1,000 privileged Tiger followers to dine with their heroes—at \$10 a plate.

Owner Walter O. Briggs, returning on the train with the team, bore a prized possession: The ball with which Mayo took Skeeter Webb's throw to force Roy Hughes of the Cubs at second for the last out of the seventh game. It was given him by Mayo.

**A THOUGHT for... COLUMBUS DAY-1945**

Civilization itself is embarked on a Columbus voyage. We sail toward unknown horizons, expectant, yet fearful.

We have torn the atom apart, releasing limitless physical forces. Can we now perform the far more difficult spiritual feat of drawing men closer together in Peace and Brotherhood?

Can we learn — individually and collectively — to show proper respect and consideration for the needs, rights and feelings of others?

This is the only course of human conduct which can carry us to a hoped-for New World.

## EXCEPTIONS IN HUDSON ESTATE ARE DISMISSED

In a four-page opinion handed down by Judge W. C. Sheely in court Saturday, exceptions to the account in the estate of Dr. E. D. Hudson, Sr., are dismissed. Finding no balance in the hands of the administrator of the estate for distribution, the court also dismissed a proposed schedule of distribution.

Two sons of Doctor Hudson by a former marriage under the name of Edward D. Herman, George and Frank Herman of Baltimore, had taken exception to the account in Doctor Hudson's estate filed in court by Doctor Hudson's widow as the administratrix.

The court discussed the apparent intent of the wording of Dr. Hudson's will which said: "In case of sudden death I do give in full charge all I have to my wife."

### Sons Were Disinherited

The court wrote in part as follows in today's opinion: "This is a laymen's will and the writer has expressed his intention in apt words to indicate that his wife was to take his property absolutely. That being true, it follows that he did disinherit his heirs by necessary implication and that presumptions hereinbefore referred to would not apply. The result is that the exceptants are not entitled to any share in the estate of the decedent and therefore their exceptions to the account of the administratrix must be dismissed."

Judge Sheely ordered a change in the account however by directing that the debit item of \$7,500, representing the residence of the decedent, be stricken from the account and directed also that the account be confirmed showing a balance due the account of \$1,509.30.

Exceptions filed by the Herman brothers alleged that Mrs. Hudson's account failed to take into account office furniture, equipment, medical supplies, household furniture, a diamond ring and other jewelry and also took exception to the fact that two-ninths interest in that property was not distributed to them. Later stipulations were filed setting forth proposed means of settlement of the estate depending upon the ruling of the court on the point of whether the sons were entitled to a share of the estate.

## FIX DATES FOR MANY SESSIONS OF CHURCH UNITS

Plans for two fall county-wide rallies of Sunday school workers, dates for two district rallies this month and dates for principal county Sunday school gatherings in 1946 were announced following the October meeting of the Adams County Council of Christian Education.

There will be a workers' conference Friday, October 26, in Trinity Reformed church, Gettysburg, with a discussion session at 3 p. m. and a banquet at 7 p. m. with attendance restricted to county and district Sunday school officers. The meal will be served by a group of women of the Reformed church.

On Sunday, November 18, a "four-way" conference will be conducted for all Sunday school workers of the county. There will be special sessions for adult, young people's, children and administrative departments workers. The place for that gathering has not been announced.

Two other approaching church school activities were announced. The annual fall rally for District 3 will be held Sunday, October 14, at the Hoffman orphanage. The fall rally for District 2 is scheduled for Sunday, October 28, at the Fountaindale Methodist church. That district's spring convention date was announced as April 28.

Next year's county-wide convention of the Council of Christian Education will be held June 23 at a place not yet announced. The fall planning conference and banquet was set for October 25, 1946, and the annual "four-way" conference next year will be held November 17.

The executive group has named Thomas J. Winebrenner, Gettysburg, and Harry Blair, Hanover, as its representatives to the state Sunday School convention to be held October 10 at Lewistown.

### 35 DEGREES HERE

Another heavy frost covered Adams county Wednesday a. m. but the official thermometers of Dr. Henry Stewart, local observer, showed the lowest temperature was only 35 degrees. Last Thursday the first frost arrived with the mercury at 31 degrees.

## Newlyweds

M-Sgt. and Mrs. Robert L. Wingert who were united in marriage at St. James Lutheran church Saturday afternoon, September 29. Mrs. Wingert is the former Miss Arlene J. Spangler, daughter of Mrs. Ruth M. Spangler, Littlestown, formerly of Gettysburg.

## NEW OXFORD'S RATION BOARD CLOSES OCT. 19

The New Oxford War Price and Rationing Board office will close on October 19 when its work will be consolidated with that of the rationing board office at Gettysburg. It was announced Tuesday.

The closing of the New Oxford board office is a part of the nationwide consolidation of boards being carried out by the OPA. It was explained. In the Harrisburg district, the number of boards is being reduced from 24 to 10 offices, each located in the county seat. The Hanover office also is being eliminated and its work assigned to York.

The consolidation has been made possible by the ending of a number of ration controls. Reduction in staffs began soon after V-J Day.

The New Oxford staff will not be sent to Gettysburg. One member recently was transferred to the Hanover office and the others have resigned to accept other positions. Only two persons serve in the New Oxford office now and they have accepted other positions to which they will go when the ration board office closes.

When rationing began early in 1942 it was handled out of Gettysburg for the entire county but as the number of rationed commodities increased it was found necessary to establish the New Oxford office.

Chairman Richard L. Livingston, of New Oxford, announced that rationing application forms will be available at sites to be announced at a later date and as soon as the sites can be selected. Forms can be secured at any time by writing to the Gettysburg office.

The filled out forms should be mailed to the Gettysburg board to be acted upon and ration currency will be mailed directly to the applicant without delay.

Although the New Oxford board is closing its doors, Chairman Livingston called upon the price panel members and assistants to stay with the program and "help carry out our responsibility to the people of this community for vigorous control of prices at retail. Without careful control, prices will surely rise."

Mr. Livingston stated "that I want to express my grateful thanks for the loyalty and duty of both volunteers and paid employees of the board. They worked

## YW DIRECTORS HOLD MEETING; NAME CHAIRMEN

Two committee chairmen were  
appointed; reports on activities were  
received and a new ruling on uses  
for which the association building  
is available was adopted at the Oc-  
tober meeting of the board of di-  
rectors of the Gettysburg YWCA

"Due to the restricted size of the  
building and the necessity of using  
the rooms for many activities, tol-

## NEWLY FREED VETERANS MAY CAST BALLOTS

Veterans of World War II who  
have been discharged from the  
service too late to be able to register  
before the general election will be  
able to cast military ballots in  
Adams county at the general elec-  
tion next month, the county com-  
missioners decided Wednesday morn-  
ing at their weekly meeting.

Wednesday's action by the com-  
missioners makes it possible for  
men and women who leave the  
armed forces between September 15,  
the day the registration books were  
closed, and election day to vote even  
though they are not registered.

The soldier ballot law providing  
for military ballots for the service-  
men does not make provision for  
the present contingency but many  
counties over the state are taking  
similar action. Civilians or ex-  
servicemen who were out of the  
armed forces in time to register be-  
fore September 15 may not vote un-  
less they are registered.

**Approved By Martin**  
A spot check across Pennsylvania  
by the Associated Press showed  
missioners makes it possible for  
Wednesday many county election  
boards are permitting registration  
of recently discharged servicemen  
and women for the November elec-  
tion.

The action followed a recom-  
mendation by the Pennsylvania  
County Solicitors' Association favor-  
ing the registration of recently dis-  
charged members of the armed  
forces—a recommendation approved  
by Governor Martin.

"It's entirely up to county boards  
of election and not a matter we can  
rule on," commented Deputy At-  
torney General William M. Rutter  
when asked if a ruling by the De-  
partment of Justice has been or will  
be made.

The county commissioners, as the  
county election board, administer  
the election laws with some super-  
vision by the state election bureau.  
The election laws are interpreted  
for the county election boards by  
the county solicitor.

## SEEK JOBS FOR WOUNDED VETS

The United States Employment  
Service brings more than ten years  
of experience into its new assign-  
ment of finding jobs for physically  
handicapped veterans of World War  
II. E. A. Crouse, manager of the  
USES office in Gettysburg, stated  
Oct. 5 in announcing four place-  
ments of veterans through the ser-  
vice during the past month.

Pointing out that the number of  
civilian workers who become handi-  
capped for jobs annually exceeded  
even the wartime military casual-  
ties resulting in occupational dis-  
ability, Mr. Crouse said the USES  
has developed special selection and  
placement techniques for matching  
workers with the jobs they are able  
to perform and in which their phys-  
ical impairment is not an impediment  
to the job.

"The employment service aims to  
select occupations to match the phys-  
ical abilities of the applicant and to  
find jobs which the handicapped  
person can perform despite the phys-  
ical limitation," Mr. Crouse said.  
"With the USES given responsibility  
in all communities for assisting  
veterans to find suitable employ-  
ment, the only limit to our capacity  
for placing them will be the limita-  
tions placed by those who have jobs  
to offer."

He invited all employers in Ad-  
ams county to file specifications of  
their job opportunities with the  
USES office at Gettysburg, and to  
indicate a willingness to employ  
physically handicapped workers  
when such workers are qualified for  
the job.

here Monday afternoon to Guy La-  
fean Bange, son of Mrs. Clayton A.

Mrs. Lloyd A. Wherley, Hanover.

## Former Gridmares Are Now Shipmates On A Destroyer

**Aboard the USS Melvin in the  
North Pacific (Delayed)**—Two 20-  
year-old gunners, former teammates  
on the Gettysburg high school foot-  
ball squad three years ago, have  
been shipmates on this 2,100-ton  
destroyer for the past 19 months,  
during which time they participated,  
in virtually every major engagement,  
in the Pacific war zone.

They are Gunner's Mate Third  
Class Arthur W. Brown, USN, son  
of Mr. and Mrs. Delbert A. Brown,  
Gettysburg R. 4, and Seaman First  
Class Thomas J. Hilty, USN, son of  
Mrs. Elizabeth Hilty, of Gettysburg.

Both boys entered the navy from  
high school in the spring of 1943 and  
received their recruit training at  
Sampson, N. Y. Brown, who is a  
member of a five-inch gun crew, was  
assigned to the commissioning com-  
plement of this ship the latter part  
of that year, while Hilty, a captain  
of a 40-mm. gun crew, reported  
aboard two months later.

As gunners, they are justly proud  
of their destroyer's outstanding record  
of shore bombardments at Saipan,  
Tinian, Luzon and Paramushiro; the  
sinking of a Jap transport off Saipan,  
and the "splashing" of six en-  
emy planes off Iwo Jima and Okinawa.  
As further proof of the Melvin's  
accomplishments, they point out  
the historic battle for Leyte Gulf,  
in which their ship executed an  
unopposed night torpedo at-  
tack on a large Jap task force in  
Surigao strait and assisted in sink-  
ing a battleship and a destroyer.

In the closing weeks of the war,  
the Melvin operated with the pow-  
erful Third Fleet and aided in de-  
livering the knock-out blow to Ja-  
pan. Their destroyer supported the  
carrier plane assaults on the Japa-  
nese homeland and the devastating  
bombardments of Muroran and Hi-  
tachi, important industrial seaport  
cities located on Honshu and Hok-  
kaido.

## HIT-RUN DRIVER ARRESTED AND PLEADS GUILTY

Clarence L. Warren, 28, Fairfield  
R. 1, was arrested Tuesday afternoon  
by Chief of Police Glenn Guise and  
state police as the hit and run  
driver that figured in a collision  
Saturday evening on Steinwehr  
avenue.

Arraigned before Justice of the  
Peace Robert P. Snyder, Warren  
sighed pleas of guilty to charges of  
hit-and-run driving and turning off  
his lights to avoid identification.  
Justice Snyder set bail at \$300 on  
each charge and Warren was com-  
mitted to jail.

In spite of the driver's efforts to  
avoid detection by turning off his  
lights and speeding out the Em-  
mitsburg road, police secured a  
license number from Robert G.  
Stenger, Waynesboro R. 1, who filed  
the informations against Warren  
after his car had been hit by the  
then unknown motorist.

## Bumper Part Fits

The police also had a part of the  
rear bumper of the missing car  
which they found at the scene. The  
number proved to be that of War-  
ren's machine and the bumper part  
the police had was found to be  
missing from the Warren auto.

Warren's only explanation was  
that he "didn't think the other car  
stopped."

The accident occurred about 7:30  
Saturday evening. After Stenger's  
car had been hit it went out of  
control and struck the car of Miss  
Rae Folkenroth, Emmitsburg road,  
being operated by her brother,  
Donald.

Police estimated that damage to  
the Stenger and Folkenroth cars  
totaled \$425. No one was injured  
in the accident.

Warren is expected to be brought  
into court next Monday for sentence.

sented with a past president's jewel.

ing.

## TELLS CLUB OF TREATMENT AS WAR PRISONER

German soldiers had high morale  
and were "first class fighters," Ma-  
jor John C. Hollinger, new professor  
of military science and tactics at  
Gettysburg college, told members  
of the Gettysburg Rotary club at their  
weekly dinner meeting Monday eve-  
ning at the YWCA building.

The German soldiers were prod-  
ucts of a thorough military system  
and rank high with the soldiers of  
any nation, the officer said. Major  
Hollinger served with the 106th Di-  
vision and was among those cap-  
tured by the Nazis last December 19  
in the "Belgian bulge."

## Unit Cut Off

The German counter-thrust and  
the subsequent capture of a large  
number of Americans in that sector  
was an experience which will be  
long remembered, the speaker said.  
In the early stage of that attack,  
the unit with which the Gettysburg  
officer served was cut off completely  
without communication or supplies  
for three days. Major Hollinger was  
with the regimental motor column  
at the time of the German drive  
and the entire column of 212 motor  
vehicles was captured.

The drive apparently was a last  
show of power, Major Hollinger said  
and was designed to bring peace in  
place of the unconditional surrender  
demanded by the Allied powers.

The officer told of the manner in  
which the officers and men were  
sent to the interior of Germany on  
foot or crowded 50 to 60 in box  
cars. He was sent to a camp in Po-  
land but as the Russians started  
their drive from the east, the Ger-  
mans moved their prisoners west-  
ward marching 16 to 20 miles a day.

He told of liberation by the Rus-  
sians on April 22 and declared that  
the manner in which American and  
British officers restored order in the  
wild confusion which accompanied  
the release of European nationals  
from prison is a tribute to the self-  
control and ability of those officers.

## R. C. Parcells Lost

Red Cross parcels which were  
routed through Geneva arrived at  
the prisons at irregular intervals  
and it was Major Hollinger's belief  
that much of the Red Cross food  
designated for Allied prisoners was  
diverted to their own use by the  
Germans.

President James S. Cairns pre-  
sided with 51 members and guests in  
attendance. Guests included Capt.  
Samuel Spangler, recently returned  
from the European theater; C. Ar-  
thur Grist, Baltimore; Lt. Thomas  
E. Elliott, Indianapolis; Monte  
Townley, Hartland, Mich.; the Rev.  
Robert B. Rau of Gettysburg col-  
lege; Lt. Thomas Buleit, also re-  
cently returned from Europe; George  
Sauter, Baltimore; C. Richard  
Wolff of Gettysburg, and Rotarian  
C. A. Bixler of the Hanover club.

## AMOS F. BUSHEY FATALLY HURT NEAR HIS HOME

Injuries suffered in an automobile  
accident shortly after noon Saturday  
in front of his home in York Springs  
resulted fatally about three hours  
later in the Warner hospital for  
Amos F. Bushey, 70-year-old retired  
farmer.

Mr. Bushey suffered a fracture of  
the skull, a crushing injury to his  
chest and lacerations over the head  
and body when his machine was  
struck by a northbound auto bear-  
ing five soldiers toward Harrisburg  
as Mr. Bushey drove onto the high-  
way from a driveway at his home  
along the east side of the road.

Mrs. Bushey, who accompanied  
her husband but escaped with lac-  
erations and bruises, said her hus-  
band slowed the car but did not  
stop before driving onto the main  
road.

## Car Struck Twice

The front of the Bushey car was  
struck and the machine was thrown  
into the path of a southbound truck  
and was struck a second time. The  
Bushey car was demolished and Mrs.  
Bushey was pinned in the wreckage.

State police from Gettysburg in-  
vestigated and listed Pfc. Hyman  
Adelman, Brooklyn, as the driver of  
the carload of soldiers from Camp  
Ritchie. The truck involved was  
operated by Raymond William Ellis,  
Baltimore. The investigating officer  
estimated total damage at about  
\$650.

The injured soldiers were Lt. John  
Bugusky, Plymouth, Pa.; Pfc. Paul  
Bunnebach, Nesquehoning, Pa.; Sgt.  
Melvin T. Baker, Bethlehem, and  
Sgt. Raymond Jackson, Philadel-  
phia, all of whom were treated by  
Dr. William Flickinger, of York  
Springs, for lacerations and bruises.  
Mrs. Bushey also received treatment  
from Doctor Flickinger for numerous  
cuts she received from flying glass.

Mr. Bushey died at 3:15 o'clock in  
the Warner hospital. The accident  
occurred at 12:20 p. m.

State police said that Adelman  
tried to avoid the collision by swerv-  
ing to the right side of the road.

Mr. Bushey had resided in York  
Springs for the last 30 years. He  
was a member of Chestnut Grove  
Lutheran church and was a native  
of Latimore township.

Surviving are his widow; three  
sisters and a brother, Mrs. Flora  
Weaver and Mrs. Emma March,  
Harrisburg; Mrs. Joel H. Grist and  
Harry Bushey, both of York Springs.  
There are a number of nieces and  
nephews.

Mr. Bushey was a son of the late  
Amos F. and Emma (Schwartz)  
Bushey.

noon at 2 o'clock from the Bushey  
home, just north of the intersection  
near the center of York Springs,  
with the Revs. P. J. Horick and

in York Springs.

## 5-Year Old Boy Wants A Home

Little five-year-old, brown eyed, blonde Francis, motherless youngster, wants a foster home, a new "Mommie" and a "Daddy." Several months ago The Times was asked to appeal to Adams countians for a home for this motherless boy, who was then in an orphanage but wanted "a real home and a Mommie" so that he could have toys and other children to play with. The request was made by Mrs. Elizabeth Grieb, of the Child Welfare Services of the county.

A home was found for the youngster and all went well until this week when unforeseen circumstances developed which deprived Francis of his new home. Now he is sheltered in a temporary home. A permanent foster home is sought for him.

Francis' mother died when he was born. Since that time he has not had a permanent home with the exception of a few months this summer.

He's a bright little fellow, mentally sound and alert and as healthy as can be. He has been thoroughly examined by physicians who vouch for healthiness. He will be six years old on March 14 and he wants a home. He is anxious to start to school next year. He has never had the loving care of a mother or a father.

Mrs. Grieb is looking for a good Catholic home for the little fellow. The Child Welfare will pay \$4 per week to his foster parents and in addition will pay for his clothes and his medical care.

Those who are interested in befriending this little fellow and are willing to provide a home for him are urged to contact Mrs. Grieb at her office in the Murphy building or telephone 59-X.

## SCHOOL PUPILS WILL OBSERVE BUNDLE DAYS

Gettysburg school children, grade and high school, will conduct another five-day campaign for clothes for needy children, and adults, Lloyd C. Keefeauver, superintendent of schools, announced Thursday.

The drive will open Monday, October 22 and continue through October 26 and it will be known as "Bundle Days." It is part of a national drive sponsored by a Committee of School Superintendents representing 26 states to obtain clothing which will enable the "Save the Children Federation" to carry out its service program for underprivileged children both in this country and overseas.

Mr. Keefeauver said that children will be asked to bring whatever clothes they can in bundles. They will be shipped direct to New York headquarters where they will be sorted and sent to areas where clothing is most needed.

Ask Parents' Help  
Parents are asked to cooperate with their children.

Beneficiaries will be needy boys and girls in some of the disadvantaged rural areas of the United States and children from war-devastated homes in liberated countries of Europe. The federation has fixed its 1945 need at 2,500,000 pounds, and because of the cooperation which it gave to the United National Clothing Collection for people of all ages, has announced that to meet its own requirements, efforts for the next three months must be doubled. Hundreds of school systems throughout the United States are helping the federation in its crusade.

Mr. Keefeauver said that since January 1, 1944, the federation had provided over 350,000 pounds of clothing for overseas relief. One hundred and six thousand pounds were shipped to Sweden for the relief of child war refugees sheltered in that country. A shipment from the federation was the first relief clothing to reach the Netherlands. Other countries whose people have been helped have been Belgium, France, Italy, Greece, and Yugoslavia.

"But our own underprivileged children must not be neglected while we are sending relief abroad," Mr. Keefeauver said. "The needs of the people in Europe are more dramatic, but in the rural areas of America in which the federation operates, the needs of the children are just as real. Thousands of needy rural children must be kept in school next winter, and if they do not have warm clothing, this clothing must be provided. There is enough unused clothing in American closets and attics to supply the need if people will bring it out. This is a time to remember that if you can't use it, somebody else can."

The club, during a brief business session, voted to extend its scouting activities to include sponsorship, likely in cooperation with the Rotary club, of a revived troop of colored Boy Scouts in Gettysburg. The club now is a joint sponsor of Troop 77 with the Rotarians.

Next week the Lions will make their annual trip to Hoffman orphanage. The clubmen will take their wives along, it was decided Monday evening.

# INVOKES 109 YEAR OLD LAW IN SUIT HERE

Invoking provisions of a 109-year-old law, Franklin R. Bigham, Esq., defense counsel in a damage suit listed for trial in November, took steps Wednesday afternoon to have the case decided by a board of arbitrators instead of a jury.

The procedure, which never has been used in a damage suit in Adams county within the memory of county officials or members of the county bar, has been instituted in the damage action by Marvin, Thelma and Marlene Dove, of Gettysburg, against Earl Pyle, 145 Breckenridge street. Mr. Bigham represents Pyle.

A "rule of reference" was entered at the office of Prothonotary Arthur H. Shields Wednesday afternoon by Mr. Bigham in which it is stated that the defendant "declares it to be his determination" to have arbitrators chosen "for the trial of all matters in variance between the parties."

Select Arbiters Nov. 7

November 7 has been set as the day on which an unspecified number of arbitrators will be chosen at 2 o'clock in the afternoon in the prothonotary's office.

The suit is the outcome of an accident which occurred August 7, 1944, on the Harrisburg road a mile and a half north of Heidelsburg when Marlene Dove, young daughter of Mr. and Mrs. Marvin Dove, was struck by Pyle's car.

The statement of claim in the damage suit against the driver was filed in court here July 25, 1945, charging that the mishap was due to the "reckless and negligent manner" in which Pyle was operating his car at the time.

It is alleged that the child suffered permanent head and brain injuries affecting her ability to see, hear and talk. She will require medical and other special care in the future, it is alleged.

# D. M. SHULLEY PAYS VISIT TO SWITZERLAND

Pfc. Donald M. Shulley, in a letter to his parents Mr. and Mrs. Louis Shulley, Orrtanna, describes a recent trip through northern Italy, Switzerland and Germany.

His letter follows:

Civildale, Northern Italy Sunday night, Aug. 26, 1945

Dear Folks:

Last night I returned from my trip to Switzerland. I surely had a wonderful time while I was gone. I left camp here August 11, and went to Casual Detachment and stayed overnight. Then in the morning I had breakfast and then continued to Milan which is 200 miles from here. It took us about ten hours to go there. There the rest of the boys and I from our Division stayed at a hotel one day. We left the next morning by train which took us two hours to reach the border of Switzerland. We had our baggage checked at Chiasso, then we boarded a streamline train.

We proceeded to the town of Lugano where we ate dinner, after dinner we boarded a train and traveled the rest of the day and stayed overnight at the town of Brig. There is where I bought a Swiss watch and paid 115 Francs which is approximately 20 dollars in our money. That left me 35 Francs to spend for the rest of my tour, but that was plenty because lodging and meals were paid in advance.

The next morning we left for Montreux where we stayed overnight and saw a circus, almost as good as they have in the States. Montreux is a French section of Switzerland and is noted for its good wine. The next day we went to Fribourg, a German section. While there we made a secondary tour to a town on the top of a mountain by rail. The incline was so steep that they used engines that set on cogs and are pulled up. We visited there for a while and returned to Montreux and boarded a boat to Geneva traveling on Lake Geneva. That was sure enjoyable.

We reached Geneva on a Saturday noon and ate dinner at a hotel. It started to rain so we went to bed early. On Sunday it cleared off and most of us went to the League of Nations Building and another fellow and I went to a movie (in English) after that we enjoyed a band concert in a park where we ran across two Swedish boys who would like so much to come to America. After that we went to a hotel and ate supper. The meal was very good. Incidentally all the meals on our trip were O. K. The hotel service was similar to that in the U. S. Then we went window shopping and retired early.

The people of Switzerland are kind to the American soldiers. It seems to be a land of plenty. They have a ration system similar to that in the States. They lack bread, sugar and coffee, the latter is synthetic. Cigarettes are plentiful and you can buy American blend cigarettes, but not the same brands as they have in the U. S. Plenty of cigars and the boys go for them in a big way. The city of Geneva has a population of 250,000.

We stayed overnight at Meilen.

# Helps Land Troops On Beach Of Japan

S. 1/C John R. Miller, whose wife resides at 146 Breckenridge street, helped take the first contingent of American troops into Japan as a member of the crew of the LSM 346 when on September 9 his ship landed parts of General Elchelberger's Eighth Army headquarters detachment on the beaches 11 miles south of Tokyo.

The LSM 346 was the first ship of that type to be unloaded on that beach. Previously the LSM 346 operated at Guam, Leyte and other ports in the Philippines. Enroute to Japan the flotilla was delayed by the same typhoon which held up the signing of the surrender papers several days.

Sweet corn could be had this morning at 40 cents a dozen. A few string beans were offered at 15 cents a quart and 25 cents for a two-quart box.

Cider at 75 cents per Gal.

Celery sold for 10 and 15 cents a stalk; eggplants, 10 cents; turnips, 15 cents a quart and 75 cents and \$1 a half bushel; peppers, three for 10 cents and \$1 a half bushel; onions, 10 cents a box; lettuce, 10 cents a box; sweet potatoes, 20 cents a quart box and \$3 a bushel; Savoy cabbage, five cents a pound; regular cabbage, eight cents; spinach, 10 cents a box; endive, 10 cents a head; sauerkraut, 35 cents a quart; potatoes, \$2.40 and \$2.50 a bushel; and pumpkins, from 10 to 25 cents each.

gen, in a German section, then left for Lugano and from there to the city of Milan, where the Swiss money was exchanged for Italian money. The city of Milan is a modern and up-to-date city and very beautiful.

The trip was sure worth all it cost which was \$70 which would have cost a civilian at least \$1,000. We left on our tour as you will note on August 11, now that the end of the war was in sight, we of the 34th Division, were granted this privilege of visiting Switzerland most of us took advantage of it as our turn came.

"War Is Over"

Upon arriving in Switzerland the first thing we heard from a loud speaker was "Welcome to Switzerland," the war is over. You could imagine our feelings. We said one to another, "I wonder when I'll get home, now." I expect to get home about Thanksgiving. I sure will be glad when I can cuddle into a nice soft bed again between sheets and have my own pillow, but I'm not going to cry. I am delivering rations to our camp daily, having plenty to eat and have been receiving a nice lot of letters from all of you which I appreciate.

With love, your son,

"DON"

Pfc. Shulley entered the service October 19, 1942, at Camp Meade, Md., and received training at Camp Shelby, Miss., Shreveport, La., and Los Angeles, Cal. # D. B. SHETTER ABOARD "EVANS" DURING BATTLE

Q.M. 2/c Donald B. Shetter, 21, son of Mr. and Mrs. Ralph B. Shetter, Biglerville, is spending a 30-day leave at his home after having returned to the United States July

DONALD B. SHETTER

27 aboard the USS Evans which was forced to be towed to California after being severely damaged May 11 by Jap suicide planes near Okinawa.

The Evans and Hadley, both destroyers, were assigned May 10 to a radar picket station between Okinawa and the Jap mainland and were attacked by a Jap torpedo plane about 4 p. m. upon their arrival. The plane was shot down. All of the crew of the Evans were placed on general quarters for the night, several managing to find time to eat and a few to sleep a short while. Jap planes hovered over the two ships a part of the night but could not locate them due to the darkness of the night and the fact that the Evans and Hadley refused to reveal their positions by firing. Shortage of fuel forced the planes to withdraw.

## Japs Score Hits

About 7:50 a. m. on May 11 a Jap plane was observed about 8,000 yards off the port bow. The ships started firing at the plane as it came in slowly. The plane misjudged the location of the Evans and was completely shot up by the ships as it passed by, finally crashing with its two TNT-pontoon loaded cargoes exploding harmlessly.

No planes were then cited until 8:50 a. m. when about 150 Jap suicide bombers began attacking from all angles. The Evans was first struck at 9:10 on the port bow but was not slowed down. A 500-pound delayed action bomb and another suicide hit followed. The forward torpedo room was hit by a suicide plane and still another hit the fire room followed almost immediately by a 500-pound bomb which left the Evans lying "dead" in the water.

According to Shetter, the Evans was saved by the arrival of Marine Corsair planes flying from Okinawa in response to a call for help. The Corsairs encountered Jap planes enroute and were out of ammunition on arrival but drove off the enemy planes by riding some to the ocean while using their propellers to clip wings and tails of other Jap planes.

## Ships Arrive

Other help soon arrived from Okinawa, the destroyer Hubert and two LCS boats tying up with the Evans to help keep it afloat. In the afternoon two tugs arrived from Ie Shima and towed the Evans there where it remained for three days after which it was towed to Kerama Retto, a small island near Iwo Jima. They remained alongside the Evans until May 29 when the Evans was put in drydock. During the 18 days, 12 bodies of sailors remained in parts of the ship which could not be removed until repairs were made. During the battle 35 of the crew of the Evans were killed and 28 others suffered wounds.

After receiving emergency repairs to top structure damages the ship left June 19 in tow for the United States going first to Salpan where a merchant tug took it in tow to Pearl Harbor. Another tug took over at that place and took the ship to the Mare Island port, California, where it is now in drydock awaiting decommissioning.

# SAYS POST-WAR PLANNING IS UP TO COMMUNITIES

"Post-war employment can be solved at local levels if Pennsylvania communities will appraise their assets and potential possibilities and develop them to the fullest extent possible," business and civic leaders from seven counties in the south-central Pennsylvania district were told by Ray Smith, deputy secretary of the Pennsylvania Department of Commerce, at a meeting at the state capital Monday evening.

Henry Garvin, president of the Gettysburg Chamber of Commerce, headed a delegation that represented Adams county at the meeting.

The commerce executive told of the facilities of his department that are at the disposal of local communities to assist in the development of their resources. He told of the industrial division of the department and its program for expansion of the industrial interests of the state as a means of meeting the post-war employment problem.

## Tourist Revenue

J. Herbert Walker, director of the travel and vacation section of the Pennsylvania Department of Commerce, disclosed the value of tourist and vacation travel to the state as being in excess of \$415,000,000 annually.

"Travel is a great Pennsylvania industry," Mr. Walker declared. "We do a bigger travel business than Florida or Maine and as a matter of fact we rank fifth among all states as a travel objective."

Mr. Walker told of the facilities of the department for the distribution of literature of local communities as a supplement to the various pieces of literature published and distributed by the state under its travel promotion program.

The chairman pointed out that if counties and communities will combine the interest and effort of all local organizations that are available and adopt programs to further the business of their areas, private enterprise will meet the challenge and the problems of the postwar period "without the artificial stimulus of government work projects."

## Practical Approach

"This sort of program is the direct and practical approach to the solution of our future economic problem. It can best be met by local levels but it cannot be expected that any single local organization can do it alone. The matter of the strength and soundness of the economy, the prosperity and the business opportunities in our Pennsylvania communities is something that should and must command the interest and united efforts of all business, civic, cultural and educational groups in each and every county," Mr. Smith said.

Similar meetings of county leaders are being held throughout the state under the auspices of the Department of Commerce as a part of the governor's program to sell Pennsylvania and its opportunities to Pennsylvanians and as a means of providing jobs and opportunities for the thousands of men and women returning to their communities from the services and from war industries.

# INSTITUTE FOR TEACHERS WILL BE NOV. 2 AND 3

Announcing that the annual institute for county school teachers will include a Saturday session—for the first time in many years and possibly for the first time since institutes were begun 89 years ago—the office of the county superintendent of schools released Thursday the program for sessions to be held Friday and Saturday, November 2 and 3.

Sessions will be held Friday morning, afternoon and evening and Saturday morning. This year also will see the first evening session of institute in a number of years although a quarter century ago and more, the evening lectures were a feature that attracted large crowds.

Institute sessions this year will be held in the chapel of St. James Lutheran church.

In explanation of the changes in the institute schedule this year from that of recent years when the sessions regularly were held on two weekdays, this statement is made in a letter going out to all county teachers from the county office:

## Get 2-Day Credit

"The Friday evening and Saturday forenoon sessions constitute an innovation in this year's program. These two sessions, however, will enable teachers to receive credit for attending a second day of Institute without the loss of teaching time. Another innovation is the omission of the teachers' banquet."

It was further explained that under the old plan teachers lost two days of teaching time for which they received only \$5, which was less than their teachers' salaries for the two-day period. With one session on Saturday they will lose only one day's pay but will receive the usual \$8 for attendance at Institute sessions.

Institute reservations are to be mailed to the county office by October 20. High and elementary school principals are asked to enroll their teachers as a group. No registration fees can be accepted during the Institute sessions. The total for enrollment fees is \$7 including institute and professional organizations dues and subscription to professional publications.

## General Theme

The general theme is "Educational Problems for a World at Peace."

Sessions will open at 9:45 a. m. Friday, November 2 and the formal address of welcome to the teachers will be delivered by Dr. Robert A. Bream, assistant county superintendent. A one-hour panel discussion on "Improving the Educational Program" is scheduled for the morning session.

In the afternoon there will be separate sessions for the elementary and secondary division teachers to be followed by a general session at 3 o'clock at which Miss Kathryn Oller, new county librarian, will be the speaker.

The speaker for the Friday evening session will be Orlo M. Brees, a member of the New York state legislature. His topic will be "The Road to Peace."

Institute business will be transacted Saturday morning. Officers will be elected and the reports of the resolutions and legislative committees will be received and acted upon. Institute will adjourn at noon.

Nominations for Institute offices will be made by the executive council of 15 members.
